Instruction - This sheet is provided to give additional information in
explanation of a question on the form T207D-2.

Corresponding number on form	Additional Remark and/or Explanation
III-A	EPA Site Inventory of 10/27/78 noted that the site was active at that time. Mr. Whisenhunt was contacted 12/19/83, and he said that he had been out of the disposal business for about 7 years. He sold the property at Dalton Lane at about the same time. So, according to him, the site was not operated after 1976. It was permitted in 1973.
IV-E	other debris (see photos) that could mark the former site. Another likely spot is shown in another photo where the ground has an uneven and lumpy appearance that could indicate a former landfill. There is no evidence of hazardous waste disposal at this site, and no further action is recommended.
